ABOUT ME

I am a graphic designer from Northern Illinois with a deep knowledge of custom sports apparel and printed merchandise. I have had the pleasure to work with a variety of clients and design uniforms that hundreds of athletes are wearing every single game day, all season long.

In all of my design positions, I have had to work closely with other departments (mainly Marketing and Sales teams) to make rough concepts into professional, production ready designs. That's my favorite thing to do as a designer - Collaborate.

Whether it be a one off design for event merch or creating a brand's visual direction from scratch, I am always excited to take the reins and deliver great results.
